2547	ABL 1027	808 x 808 x 458mm	79

### IMPORTANT NOTES:

- The cubic rate has been worked out at 250kg/m<sup>3</sup> as this is the most common conversion rate currently in the courier industry.
- It is your responsibility to check with your courier company to ensure this is the correct rate for you.
- While all care has been taken in measurement, like any manufactured product there are variances between batches of carton, so please use these cubic rates as a guide only.
- Generally, couriers will charge the greater of the dead weight or the cubic weight of the carton. This chart shows approximate cubic rate of the carton. The dead weight component is determined by what the carton is filled with.
- ABL takes no responsibility for the freight charges you incur utilising our cartons. Regard this sheet as a guide only.
